

# SSP 35-05 Emtek Stainless Steel Borehole pump

Article no.	Model Code	Description
106529	SSP 35-05:4/R80	SSP 35-05 Emtek Stainless Steel Borehole pump

Electrical Data	
Power effect	4,00 kW
Voltage	3x400

Installation	
Connection	R80 3"

Pump Data	
Max Pressure	61 m
Max Flow	35,0 m3/tim
Curve Code	05

EMTEK 6" submersible multistage pump for raw water supply, groundwater lowering, pressure boosting and industrial applications. Developed for applications where high demands are placed on reliability and water quality.

The pump part is made entirely of stainless steel and of course equipped with a Franklin motor. 4" motors are used for power up to 7.5kW, then 6" motor.

Applications: Raw water from borehole or lake, pressure increase, water supply, cooling, groundwater lowering

Quick facts:

- All parts in contact with liquid i stainless steel
- Franklin motors for long life
- Highest quality on all parts
